

CISO

LEADERSHIP SUMMIT

OCTOBER 16, 2026 · MESA, ARIZONA · PARTNERSHIP OPPORTUNITIES

Be in the room with the people who decide.

The CISO Leadership Summit is a select, invitation-only gathering of up to 125 senior security leaders, from senior security managers to CISOs. It is one day of candid, peer-to-peer conversation, and for a small number of partners, a rare chance to build real relationships with this audience in a room money can't ordinarily buy into.

What partnership here is, and isn't

Presence, not pressure.

A place in the room to sit, share a meal, and build real relationships over the day, not just a spot on a trade-show floor.

Association, not interruption.

Meaningful brand visibility alongside a respected community. No paid stage pitches, no product demos, no sponsor-controlled agenda.

Relationships, not lead lists.

The summit is built so relationships develop naturally. We create the environment; we don't harvest or hand over contacts.

A room that reflects on you.

The goal is simple: attendees leave thinking, "That's a company I'm glad was in the room."

PARTNERSHIP OPPORTUNITIES

Prestige Tiers

Three tiers of standing in the room. Each partner is recognized as a peer who backs the summit, with visibility, a table, and passes for your team. Partner summit passes include the table, meals, and networking; the closed-door leadership sessions are reserved for attendees.
